

**Equations:** Solve linear equations in one variable, including absolute value. Rearrange formulas, Write and solve word problems using equations and inequalities.(A-REI.3, A-CED.1, A-CED.4)

4	Advanced	Student can... <ul style="list-style-type: none"><li>• Solve multi-step cubic equations</li></ul> (And skills in previous levels)
3	Meets	Student can... <ul style="list-style-type: none"><li>• Solve multi-step equations involving absolute value and rational coefficients</li><li>• Write and solve multi-step equations from real world problems</li><li>• Rearrange formulas solving for a specific variable</li></ul> (And skills in previous levels)
2	Approaching	Student can... <ul style="list-style-type: none"><li>• Solve multi-step equations including distribution and rational coefficients</li><li>• Solve Proportions</li><li>• Write and solve two step equations from real world problems</li></ul> (And skills in previous level)
1	Below	Student can... <ul style="list-style-type: none"><li>• Solve two step equations</li><li>• Write and solve one step equations from real world problems</li></ul>
