

**Inequalities:** Solve linear inequalities in one variable, including absolute value. Rearrange formulas, Write and solve word problems using equations and inequalities.(A-REI.3, A-CED.1, A-CED.4)

4	Advanced	<p>Student can...</p> <ul style="list-style-type: none"> <li>• Solve multi-step cubic inequalities</li> </ul> <p>(And skills in previous levels)</p>
3	Meets	<p>Student can...</p> <ul style="list-style-type: none"> <li>• Solve and graph the solution to multi-step inequalities involving absolute value and rational coefficients</li> <li>• Solve and graph compound inequalities</li> <li>• Write and solve multi-step inequalities from real world problems</li> </ul> <p>(And skills in previous levels)</p>
2	Approaching	<p>Student can...</p> <ul style="list-style-type: none"> <li>• Solve and graph the solution to multi-step inequalities including distribution and rational coefficients</li> <li>• Write an inequality based on the graph</li> <li>• Write and solve two step inequalities from real world problems</li> </ul> <p>(And skills in previous level)</p>
1	Below	<p>Student can...</p> <ul style="list-style-type: none"> <li>• Solve two step inequalities</li> <li>• Write and solve one step inequalities from real world problems</li> </ul>
