

Borrowing library eBooks

Kindles

Visit OmniLibraries website: www.omnilibraries.org

- **Kindle Touch, 1st Generation & Paperwhite** users need to search the OMNI site using a PC or laptop
- **Kindle Fire & HD** users may search and download directly from their device.
- **Kindle Fire & HD** users may also use the Overdrive app to borrow ePub eBooks.

1. If you have not signed in to OMNI, do so now by selecting your library: **North Suburban Library District** & enter your library card barcode number and PIN
2. Use **Advanced Search** to limit search results to **Kindle Book** format
3. Click on the book cover of an available title
4. Make sure Kindle Book is listed under Available Formats & select **Borrow**
5. Select **Kindle Book** as the download format choice
6. When prompted about selecting the format, select **Confirm**
7. You will be redirected to the Amazon.com website
8. Select **Get Library Book**
9. Log into your Amazon account with your email address and password if you are not already logged in*
10. Choose which Kindle or reading app you will use to read the book
11. Select **Continue**

If you receive the message: '**Thanks! Your digital library book will be delivered to your Kindle,**' your book was sent to your Kindle. Connect to a Wi-Fi network and select Sync from your Kindle's menu or toolbar. (You cannot transfer through 3G. You may need to turn off Whispersnet/Whispersync 3G for Wi-Fi connection). After you sync your Kindle, the title should appear.

* If you receive the message: "**Please choose which Kindle you plan to transfer your title to via USB,**" you need to connect your Kindle to a computer via a USB cable to transfer the book to your Kindle. This is due to some publisher restrictions or for Kindles that do not support Wi-Fi. Select **Continue** and use the instructions on the back page.

Once the checkout period expires, the book is automatically "returned." No overdue fees!

Transferring title via USB cable:

1. If your Kindle is not Wi-Fi capable, if the publisher (such as Penguin) does not allow wireless delivery, or if you do not have access to an active Wi-Fi connection, you need to transfer titles to your Kindle through a computer using a USB cable.
2. Once you select **Continue**, you will receive the message, 'Thanks! You should be prompted to open or save the file immediately.'
3. Select **Save As** (you may need to click on the arrow next to 'Save' to receive this option)
4. Use your USB cable to connect your computer and Kindle. Your Kindle will appear as a drive on your computer.
5. Expand your **Kindle drive/folder** and select your Kindle's **Documents** folder.
6. Select **Save**. The book should now be in your Kindle documents folder.
7. Unplug your Kindle and connect to Wi-Fi. You should see your book on your Kindle's home screen.

Returning eBooks Early

1. Go to Amazon.com and sign in. Select **Your Account**, then **Manage Your Content and Devices**.
2. In Your Kindle Library, you should see the title you checked out.
3. Click on the **Actions** button and select **Return this book**. Once you click it, please be patient, it may take a few seconds to successfully return it. Once it is returned, you can either leave the title in your Kindle Library to keep track of the title you read, or select **Actions** again and **Delete from library**.
