**POSITION REINSTATEMENT**

**1 - BUSINESS EDUCATION TEACHER – HARLEM HIGH**

In an effort to retain a competitive, relevant and current curriculum and to align with Long Range Goal 2, to equip students with 21<sup>st</sup> Century skills incorporating practical experiences that contribute to the success of our community, Harlem High School has committed to developing career pathways for our students in high-demand fields. We are expanding our offerings in Information Technology and Computer Science to help our students attain marketable skills when they graduate while also earning college credit. These courses are still in development and to implement them with fidelity, the teaching staff will need to be familiar with our current courses and work on building the new ones. The teacher in this position will teach the entry level courses to the Computer Science career paths while developing the higher level courses to be implemented in SY20-21. This will allow us to building strong, meaningful career and technical education, increase demand from students for courses within the Business Department, and complete a career path in an industry with rich opportunity in our region.
